1.ALLDATA 10.50

Full name	ALLDATA 10.50 global automotive maintenance information inquiry system						
Language	English	software size	107G	Year	one quarter of 2012	Price	

Software	
Description	ALLDATA, based on CD-ROM, as a top-notch auto repair information, is well known in the United States. According to the appraisal of professionals and experts of automotive industry in U.S.A. ALLDATA, with the fullest, latest contents is very convenient for operation. Uptill the year of 2008, with its sufficient contents, it is in no way comparable than other software issued in domestic. ALL DATA, with the high cost performance, sufficient data, faster updating, and excellent service, is the professional selection for the authorized repair shops with a certain level focusing on large high-grade imported cars.
Other	Mobile HDD 120G

2、Mitchell 2012

Full name	The first quarter of Mitchell vehicle maintenance database						
Language	English	software size	75G	Year	First quarter of 2012	Price	
Software							
Description	<p>The accuracy of the details of Mitchell vehicle maintenance database, is consistent with the original maintenance manual (to some extent, it is more accurate than the original manual, because in the editing process many errors on the original maintenance manual were corrected), and maintains the unique style. It has the characteristics as follows:</p> <ol style="list-style-type: none"> 1. With the richer and accurate content, it contains nearly 5,000 models of the maintenance data, since 1983 uptill today , from 51 automobile manufacturers of the United States, Europe, Asia and around the world. 2. A complete and unified circuitry in the database: each model has a 40-80 system circuitry, and the detailed description about each pin for each computer, every line of the definition and color in circuit diagram. Mitchell circuit is more convenient for reading, because it is a redrawn circuitry with 2-3 diagrams, after the nearly 10-diagram original system analyzed. 3. With detailed and accurate location map of electrical components The database provides location of all the models of electrical components, besides text descriptions, also accompanied by diagrams, it is plain and easy to use. 4. Parts decomposition diagram and parameters For each type of car, Mitchell database, not only supplies a variety of dismantling and assembly installation steps in detail, but also a clear Parts decomposition diagram and accurate parameters for reference, which makes it more convenient and faster for car repair. 5. Technical Service Bulletin is the essence of Mitchell database. Car manufacturers have issued a large number of technical service bulletin every year, including a variety of the latest technology information, such as service technics, safety recalling information, etc,. It is helpful for auto repair shop. 						
Other	Mobile HDD 120G						

3. Autodata V3.38

Full name	Autodata: Automotive Information Database						
Language	English	software size	1. 43G	Year	2011	Price	
Software	In Europe, AutoData car information company is the most authoritative publisher of automotive						

Description	<p>technical manuals, maintenance information published deeply welcomed by the the world-wide maintenance technician</p> <p>AutoData published the technical data at first time in 1983 in the form of CD-ROM, which is able to update twice a year, and in each new version, many new elements have been increased. It is refreshing. This information include 15,000 kinds of car models of more than 80 auto manufacturers, from 1970 to 2008, including light commercial vehicles of medium trucks and sport utility vehicles.</p> <p>AutoData Repair information includes:</p> <ol style="list-style-type: none"> 1. The basic parameters of vehicles 2. Emissions and adjustment parameters 3. Lubricating Oil and capacity 4. Ignition system parameters 5. Fuel System Parameters 6. Torque Specifications 7. Brake parameters of films and brake hub 8. Air-conditioning system parameters 9. Maintenance working hours 10. Wheel Alignment Parameters 11. Valve timing 12. Maintenance Chart 13. Maintenance interval indicator and key match 14. Failure to find yards 15. Engine Management System 16. Engine data on a computer terminal 17. Fault Tree 18. Airbags 19. Air Conditioning System 20. ABS 21. Element's Position 22. Schematics
Other vesions	Auto Data in version 3.38 provides registration and installed version for 3 times

4.WorkShop Vivid 10.2

Full name	WorkShop Vivid 10.2: Vehicle Maintenance Data Query System					
Language	English	software size	2.01G	Year	2011	Price
Software Description	<p>Vivid Workshop Data is more detailed than AUTODATA.</p> <p>WorkshopData ATI, based on Vivid's technical database, is Europe's most extensive compilation of automotive database.</p> <p>Professional version contains all the necessary maintenance and repair information, adjustment data, technical drawings, fuses and relays, fault code diagnostics and engine</p>					

	management data. With wiring diagram Airco system, it is very convenient for the relay query. In some points, Workshop is better than Autodata.

5.ELSA 3.9

Full name	Volkswagen Audi 4S shop repair service system ELSA 3.9						
Language	Chinese/English	software size	22G	Year	2011	price	
Software Description	<p>It is required about 20 GB or more hard disk space for completely installing a hard disk. The system contains a detailed maintenance bulletin, vector schematics, parts information, maintenance charts, disassembly decomposition maps. It also includes a rare technical secrets such as repair information of VW / Audi security keys matching, the third generation anti-theft system of principles and coding, airbag disassembly and matching! Basic maintenance information covering the year 1986-2008 and schematics covering the 1992-2006 years:including: Jetta \ Golf \ Bora \ Baltic \ Passat, etc. (with imported models)</p> <p>It is Audi original full set of Chinese interface. The system contains a detailed maintenance bulletin, schematics, parts information, maintenance charts, disassembly decomposition maps. It also includes a rare technical secrets such as repair information of VW / Audi security keys matching, the third generation anti-theft system of principles and CODING, airbag disassembly and matching. Basic maintenance information covering the year 1986-2009: Audi 100 \ A2 \ A4 \ A6 \ A8 \ TT \ Q7 \ A6L, etc. (including import models).</p>

7.WIS 0911

Full name	Mercedes Benz WIS net:a new version of Maintenance Information System (EWA) for MB cars						
Language	Chinese/ English	software size	15.7G	Year	2011.09	Price	
Software Description	<p>From August 2007, the main group and subgroup of all modelsâ€™ query in full Chinese version is newly increased with WIS NET! New V2009/05 Mercedes-Benz car repair electronic catalog (online version) is a newly developed information system supplied by the Mercedes-Benz Company for worldwide Mercedes-Benz vehicle maintenance services station, and spare parts repair service providers. It is based on C / S and B / S structure, using the network components database with IE browser as a platform! The system, adopts series of management software to permit the registration of EPC and WIS, which effectively resolve the problem of the old WIS frequent failure of the license issue! The system is stable, with full Chinese menu, simple and convenient to use.</p> <p>The system can be divided into three versions: single PC Edition, LAN Edition and Internet Edition! As for the Mercedes Benz WIS net new version of Maintenance Information System</p>						

	(EWA), Mercedes-Benz DAS + WIS + ASRA (Plant Maintenance Information System) is the maintenance information system, based on cars, trucks, buses and sport utility vehicles. The system contains detailed information of diagnosis, maintenance, man-hours of the various control units electronic systems, mechanical systems and transmission systems and so on for America, South Africa, Europe, China and other global markets. Mercedes Benz WIS net KEYGEN registration number, completely support for upgrading, and WIS NET supports WINDOWS2000/NT/XP!
Other	Mobile HDD 120G

8.StarFinder_v3

Full name	Mercedes-Benz repair components location and query system						
Language	English	software size	1.13G	Year	2008	Price	
Software Description	Mercedes-Benz new components query system starfinder, including MB 29,140,202,203,210,163,164,170,208,211 215 219 220,230,240,463 series color pictures components inquiry system. It is a better data for checking the circuit diagram and maintenance info.						

9.Tolerance_data_2_2009

Full name	Tolerance Data 2009.2 (Windows) 3,55 GB						
Description	With Tolerance Data installed on your PC you are well equipped to carry out repairs,service and fault finding on your customersâ€™ vehicles. With current version 2009.1, Tolerance Data offers workshops even more technical repair and diagnostic data fortrucks,vans and passenger vehicles. Update facts: Service data and technical specifications on more than 6500 vehicles â€œnews are: Alfa 159, Audi A4, BMW 3 series, Citroen C3 II, citroen C5 III, Citroen Berlingo, Mazda 2,Mazda 6, Opel Zafira, Peugeot 308, Peugeo Partner, Renault Kangoo, Renault Laguna III, Volvo V70â€¦and many more.						
Other							

10.OPEL TIS2000

Full name	Opel maintenance information inquiry system						
Language	English	software size	3.18G	Year	2011.03	Price	
Software Description	The car models list: AGILA ASTRA-G ASTRA-H CAMPO CORSA-B CORSA-C CORSA-C CORSA-COMBO FRONTERA-B MERIVA MOVAN and so on. OPEL TIS2000 maintenance and diagnosis information systems, its package contains 1 DVD; it is very simple to install and takes up approximately 2.5GB of hard disk space. The information includes working hours, diagnostic descriptions and troubleshooting; vehicle dismantling decomposition, installation and adjustment, schematics,etc; the documentation						

	of older models!
--	------------------

11. Chevrolet TIS

Full name	Chevrolet Repair Information Inquiry System						
Language	English	software size	6.13G	Year	2009. 04	Price	
Software Description	<p>The system is purely original technical information including circuitry, the demolition process, technical bulletins, maintenance manuals, repairing man hours, etc.</p> <p>Car models list: European car models same as domestic car models</p> <p>Matiz / Spark</p> <p>kalos / Aveo</p> <p>Nnbira / Lacetti (Excelle HRV, Chevrolet brand in Europe by sales).</p> <p>Tacuma / Rezzo Daewoo</p> <p>Evanda / EPica</p> <p>Captiva</p>						

12. ATSG2005

Full name	ATSG Automatic Transmission Maintenance Information System						
Language	English	software size	3.93G	Year	2005	Price	
Software Description	<p>As the most famous auto-wave Maintenance Technical Manual in the world, it is available to be installed in a variety of WINDOWS system, in the form of PDF format. The system contains maintenance manuals, technical bulletin, technical periodicals, a variety of gear and the ball valve body exploded view location map, Color oil circuit diagram. It is the most authoritative information of automatic gearbox repairs !!</p> <p>Package including:</p> <ol style="list-style-type: none"> 1. Installing CD 2. Data DVD2005 3. Technical training seminar Vedio DVD 4. Seminar index CD 5. Tsb index atsg CD 						

13. OnDemand5 Transmission

Full name	OnDemand5 Transmission 5.1: Mitchell Repair Information Inquiry System Automatic Transmission						
Language	English	software size	6.03G	Year	2006	Price	
Software Description	<p>The symbol of transmission's maintenance data is TRN. It is mainly used for professional transmission repair business or transmission repair shop of repair factories. It contains the full set of original maintenance data about more than 3000 kinds of manual, automatic transmission since 1983, from over 40 vehicle manufacturers in the world TRN database, as "The Best Product Award" (TOP SHOP PRODUCT AWARD), is reelected by U.S. authorized magazine - Transmission Digest (Transmission Digest) in 1998 and 1999. It was being focused on by the global automotive repair industry. TRN database is by far the best transmission maintenance data on the market. The info of the database is as follows:</p>						

	<p>1. Full-color oil circuit diagram Mitchell color oil circuit diagram is based on the original asphalt map to re-draw a vector map format, and is able to freely zoom in and out in order to view; the graphics is very clear, which contains a variety of color oil line diagrams for stalls of various types of automatic transmission. It is a valuable reference for analysis automatic transmission fault locations, fault causes. It is unique of the maintenance information in the current repair market.</p> <p>2. Demolition of the installation process Including the whole process of the demolition and installation of transmission from the car, and the process of disintegration and reload of transmission and various parts. The description of each steps is very detailed, with the name and model no. of the necessary tools included.</p> <p>3. Electronic diagnosis Including the the circuit diagnosis and testing process of a variety of electronic components related with the transmission, also with the name and model no. of the necessary equipment.</p> <p>4. Fault code diagnosis Including a fault code reading and clearing method, the implication of fault code and how to clear failure code according to troubleshooting.</p> <p>5. Mechanical disassembly diagram There are various diagrams of disassembly and decomposition during the process of the transmission removal and installation, which makes it easier for you to understand that these processes of demolition and installation.</p> <p>6. Circuit There are a variety of necessary circuitry during the maintenance of automotive transmission. The diagrams are clear, style of which is uniform. That shortens your repairing time, and improves the working efficiency.</p> <p>7. Torque parameters and component parameters of Database With the torque parameters, for your correctly removing and installing the transmission; With a variety of machinery parameters and electronic components parameters for your correctly judging the cause of troubles.</p>
Other	After this software installed, it is required to switch the language of sysetem into English, so that the system can work normally (Restarting the computer is necessary). In this situation, some other Chinese application will not run correctly.

14.AAMCO DirecTech

Full name	AAMCO DirecTech ComputerSystem 3.0: Mitchell vehicle maintenance information on database Transmission						
Language	English	software size	10G	Year	2006	Price	
Software Description	<p>As for the instalation and contents of the software, it is samiliar to TRN.</p> <p>The info of the data is as follows:</p> <p>1. Full-color oil circuit diagram Mitchell color oil circuit diagram is based on the original asphalt map to re-draw a vector map format, and is able to freely zoom in and out in order to view; the graphics is very clear, which contains a variety of color oil line diagrams for stalls of various types of automatic transmission. It is a valuable reference for analysis automatic transmission fault locations,</p>

15.ZFAT

Full name	ZF series automatic transmission repair information query system (PDF version)					
Language	Simplified Chinese	software size	0.7G	Year	2005-2009	Price
Software						
Description	<p>Including ZF Accessories information, drawing of oil circuit, design of dismantling with models 4HP20E, 5HP19E, 5HP24E, 5HP30e, 6HP26e. ZF primarily offer supporting for the world's top brands of car manufacturers (such as BMW, Audi, Porsche, etc.).</p> <p>The development history of automatic gearbox of ZF cars</p> <p>In 1905 ZF was established earlier than the production of airships - Zeppelin</p> <p>In 1926 ZF started the mass-production of standard automotive gearbox</p> <p>In 1934, it started the mass production 4-speed synchronous transmission</p> <p>In 1950, it began manufacturing semi-automatic transmission 3 files - 3HM</p> <p>In 1961, it began producing two-speed automatic transmission - 2HP45</p> <p>In 1965, 3-speed automatic transmission - 3HP12</p> <p>In 1973 three automatic transmissions - 3HP22</p>					

In 1982 four automatic transmission - 4HP18, 22

In 1990, five-speed automatic transmission - 5HP18

In 2001 six-speed automatic transmission - 6HP26

BMW's full range of products adopt ZF automatic and manual transmission, the following table is for a series of gearbox model corresponding to different platforms. For more detailed info about ZF automatic transmission, please call Service hotline: 800-810-9669.

Model No. 1 series 3 Series 5 Series 7 Series 8Series X5

5HP18 E36 E34/39 E32/38

5HP18A E34

5HP19 E46 E39 E38

5HP24 E46 E39 E38 E31

6HP19 E87 E60

6HP26 E60 E65/67

6HP26X E53

6HP32 E65

Audi tiptronic transmissions take in ZF Group's products; the following table is for a series of model no. of gearbox model according to different platforms. For more detailed information on ZF automatic transmission, please call 800-810-9669.

Model No. A4 A6 A6 Allroad A8 S6 S8

5HP19FL B5 C4 D2 ,

5HP19FLA B5/B6 C4/C5 Hunter D2

5HP24A D2 C5

6HP19A B6 & nbs, p;C6 & nbs, p; , , ; D3

6HP26A & , nbsp; , D3

Jaguar full range of products use ZF automatic and manual transmission; the following table is for a series of gearbox model corresponding to different platforms. More detailed info about ZF automatic transmission is as follows:

Model No. XK8 XJ8 S-type Limousine

5HP24 X100 X300 D2

6HP26 X103 X202 X350

ZF automatic and manual transmission are used in all Porsche full range of products. The following table is for a series of gearbox model corresponding to different platforms. For more detailed info about ZF automatic transmission, please call 800-810-9669.

Model No. 986 Boxter 996

5HP 19FL

5HP 19HL

5HP 19HLA

ZF to the public is currently supporting two main models of Passat and Phaeton cars. Produced by Shanghai Volkswagen Passat1.8T and 2.8V6 automatic transmission model used in all ZF5HP tiptronic transmission.

Type Passat Phaeton

5HP19FL

5HP19FLA

6HP19A D1
6HP32A D1 型号 986 Boxter 996
5HP19FL 5HP19HL 5HP19HLA
目前 ZF 给大众配套的主要为帕萨特及辉腾两大车型。上海大众生产的 Passat1.8T 及 2.8V6 自动挡车型全部采用 ZF5HP 手自一体变速箱。
型号 Passat Phaeton
5HP19FL
5HP19FLA
6HP19A D1
6HP32A D1

16.BMW WDS13.0

Full name	the latest version of BMW circuit Query System of BMW WDS13.0 in full Chinese &a						
	mp;a, mp;, amp;, amp;, nbsp;						
Language	Simplified Chinese	software size	0.7G	Year	2008.03	Price	
Software Description	WDS is a BMW electrical wiring diagram information, based on the applications of browser. The original circuit of new models of BMW series includes: all circuit of new BMW models, computer terminals, component location, etc.. All diagrams and pictures of circuit are in the form of the website format, made by BMW company according to DIS of BMW diagnosis system. It is convenient and simple for query. It is just necessary to install a small tool so that you can directly plug disk to use; Full Chinese version includes: wiring diagram, PIN±s distribution, the location of components, the material of connector, function description, measuring device, help, functional testing, etc. BMW Series Car circuit including: 1 series, 3 series, 5 series,6 series,7 series, X3, X5, Z4, Z8 Series, E38, E39, E46, E52, E53, E60, E61, E63, E64, E65, E66, E83, E85, E87, E90						
Other							

17.VOLVO WDS

Full name	Volvo car repair circuit Inquiry System						
	=						
Language	Traditional Chinese	software size	3.7G	Year	2009	Price	
Software Description	Volvo circuit in Traditional Chinese, available for query the latest Volvo model in 2009						
Other	able to provide the latest version in English of the 2010 circuit query system, price: USD280						

18.BMW KSD0906

Full name	BMW repairing working-hours query system						
Language	Simplified Chinese	software size	3.57G	Year	2009.06	Price	
Software							

Description	BMW KSD includes the information of working hours since 60s' and the valuation system of export products. The system is run directly from CD; it is not necessary for installation, and supports multi-languages, besides Chinese and most European languages. The program interface is easy to use; it is one of standard equipments for the BMW special maintenance station.

19.BOSCH ESI

Full name	Bosch Maintenance and Diagnostic System 2009.03						
Language	Chinese and English	software size	25.8GB	Year	The third quarter of 2009	Price	
Software Description	<p>The software, necessary for auto repair shop, in general is divided into two kinds: management and maintenance & diagnosis. Management software is mainly used for managing personnel the factory, finance and the cost of the producing process, progress control, and so on. In this regard, the domestic engineers have developed a number of very good products, adaptable as well as inexpensive, able to work stably on all kinds of grades on both single computer and LAN. As for diagnostic software used for maintenance in the domestic market, it is still blank. It is only the relative software of Mitchell of the United States that came out. Today, Bosch ESI, the maintenance diagnostic system, was introduced as the German Bosch automotive electronic systems based on their own development, also the application software with great flexibility in the maintenance.</p> <p>ESI is the abbreviation of Electronic Service Information (e-Maintenance advice), which is a Windows-based application platform of any 486DX PC or above. What can ESI be done? First, information retrieval, stored the data of 12.5 thousand kinds of cars, 10,000 kinds of trucks, 7,500 tractors and 4,500 motorcycles. Through the menu, you can check simple information of any vehicle, such as model code, engine type, displacement, and the car parts which can adopt Bosch products, from 60s™ to the present.</p> <p>If the Bosch's electronic system is used on cars, such as fuel injection, electronic ignition, ABS, airbags, more information can be found from the ESI, including the circuit diagram, the meaning of fault codes, and the dismantling exploded view of important parts. New version of the ESI also provides a particularly effective troubleshooting program that can guide the maintenance personnel, according to the appearance of failure, to carry out in-depth examination step by step until the real cause of the malfunction found. Not only does it tell the maintenance personnel what to do step by step, but also gives a number of important data.</p> <p>The most important function of ESI is the fault detection. It is in the computer's hard drive pre-stored thousands of diagnostic procedures of car models. when necessary, it is able to download the diagnostic program of some model to the hand-held detector of KTS-500, then connect with the car to test. This is equivalent to own a huge database of repair. Bosch ESI system also can be connected to a variety of testing equipment, from simple KTS-500 until the advanced FSA-560. In addition, it is able to connect with the system of brake, sideslip test bed to conduct a comprehensive and integrated testing. Further more, ESI is not an isolated system, together with the Bosch's CAS (computer-aided maintenance), SIS (maintenance advisory system), SD (computer-based diagnostic) form a perfect vehicle maintenance system. With good scalability, through the computer printer and modem, the circuit test results can be printed out, also the orders of components able to be sent. In the future, by upgrading the software, even remote diagnosis of vehicle faults will be realized.</p>						

	<p>In addition, the latest version of the ESI no longer supports the KTS 300. However, for the repair shop now with KTS 300, Bosch company has introduced a preferential buy-back plan, that is the latest KTS card to replace the KTS 300, with same powerful function of KTS 500. While the original KTS 300 together with software modules can be converted with a certain amount.</p> <p>CD-A Parts & Equipment CD-B Performance Data CD-C troubleshooting and diagnostics (engine control circuit with the ABS) Data circuit CD-C1/C2/C3/C4/C5 Film CD-D Diesel Engine Parts CD-E Electrical Parts CD-F archive CD-K Element Management Handbook CD-M machine (AUTODATA data: Maintenance light zero \ timing \ repair data, etc.) CD-P circuit D-S Automotive Maintenance CD-T tools and diagnostic equipment CD-W high-pressure oil pump and engine control values CD-Z1 Diesel Pump Parts CD-Z2 Diesel Pump Parts</p>
	<p>CD-C troubleshooting and diagnostics (engine control circuit with the ABS) Data circuit CD-C1/C2/C3/C4/C5 Film CD-D Diesel Engine Parts CD-E Electrical Parts CD-F archive CD-K Element Management Handbook CD-M machine (AUTODATA data: Maintenance light zero \ timing \ repair data, etc.) CD-P circuit D-S Automotive Maintenance CD-T tools and diagnostic equipment CD-W high-pressure oil pump and engine control values CD-Z1 Diesel Pump Parts CD-Z2 Diesel Pump Parts</p>

20.Mitchell CRS

Full name	Mitchell professional sheet metal repair database						
Language	English	software size	21.5G	Year	2006	Price	
Software							
Description	The most professional sheet metal database, with the sheet metal standard data of imported cars of the year from 1983 to 2006, is the second professional maintenance data after OD5. With complete data for high-grade cars, including both of texts and pictures, it is a necessary repair database for vehicle accident insurance.						

21.HY ESIS

Full name	South Korea's Hyundai Motor Repair Information Inquiry System						
Language	English	software size	0.58G	Year	2002	Price	
Software Description	<p>A full range of car repair manuals of Hyundai cars in 2002, contains all disassembly procedures, maintenance data, fault diagnosis, circuit schematics, location map, wiring harness diagrams.</p> <p>Car Models : ATOS, ACCENT, COUPE, SONATA, H1, H1 TRUCK, MATRIX, TRAJET, SANTA FE, TERRACAN.</p>						

22.HY EFLASH

Full name	South Korea's Hyundai Motor Repair Information Inquiry System (FLASH version)						
Language	English	software size	3.18G	Year	2006	Price	
Software Description	<p>A full range of car repair manuals of Hyundai cars in 2006, the circuit repair books, include all disassembly procedures, maintenance data, fault diagnosis, circuit schematics, location map, wiring harness diagrams.</p> <p>Models are: Accent, Azera, Elantra, Sante Fe, Sonata, Coupe / Tiburon, Tucson,</p>						

23.FSMD

Full name	Ford Service Manua Systeml in the year of 2007-2008						
Language	English	software size	5.18G	Year	2006.10	Price	
Software Description	<p>Including a full range of Ford models service technical information.</p> <p>Maintenance Technical Bulletin</p> <p>Circuit Maintenance System</p> <p>Maintenance Information</p>						

24.TEAM21

Full name	Toyota TEAM (Technical Education For Automotive Mastery) 21 after-sale training courses
